DOCK LIGHTING

APS&GO - LED™

The APS&GO - LED reduces the potential for serious accidents from truck drivers pulling away before loading/unloading is finished.

- High visibility red/green flashing LED lights with truck driver sign for simple, effective communication
- Compact, low-profile design reduces potential damage and fits between narrow seal/shelter designs
- Impact resistant polymer housing helps prevent corrosion
- Long lasting LED technology for added safety

APS&GO - LED

Dock Strobe™

The Dock Strobe will alert all employees to potentially dangerous situations using a 100-candela strobe tube light powered by two 6-volt, lantern batteries.

- Safety yellow casing and amber 360° dome for superior visibility
- Low profile, impact-resistant 4" dome
- Dual 3" heavy-duty industrial grade magnets on base

Dock Strobe

Reflect & Guide Stripes

The easy to install Reflect & Guide Stripes enhance safety at the dock and throughout the facility.

- Weather resistant for long-term performance
- 47,000 microprisms per square inch provide intense reflective property
- No electrical hook-ups, no bulbs to replace and zero energy use
- 4" Wide; 10", 24", 30" long and custom sizes available

Reflect & Guide Stripe

LED Guide Lights

Guide Lights provide an ideal focal point for drivers, greatly reducing the risk of "overrunning" the dock. The dual Guide Light's illuminate the dock surface exactly where needed to assist a driver in lining up the trailer square to the dock.

- 50,000 hr. LED lamp life
- High-impact polycarbonate construction with ribbed reinforcing
- High visibility from compact illumination on both sides of the door opening
- 120V AC/DC operation; dual light system is standard

LED Guide Lights
