WELTERWEIGHT™

Ideal For Facilities with:

- Moderate panel damage
- Moderate to severe track damage
- Greater budget sensitivity

Damaged dock doors are a common problem for busy loading docks and drain valuable resources that affect your bottom line. The TKO WelterWeight® Dock Door is designed to prevent damage to the door panels and track when impacted.

DESIGN BENEFITS

1. Full height 12 gauge galvanized steel track standard
2. Optional Impact-A-Track™ provides total protection against the most abusive impacts from top to bottom. 3', 6' or full height available. 5-YEAR IMPACT WARRANTY
3. 2" thick insulated, foam core panel with damage resistant polymer interior facing. 1-YEAR PERFORMANCE WARRANTY
4. Heavy-duty, retractable plungers allow door to release from the opening upon impact
5. Tight perimeter weatherseal incorporates a brush seal and loop seal to eliminate air infiltration and light gaps. Seal is attached to the door panel versus the door jamb, keeping it out of harm's way and providing a consistent seal
6. Heavy-duty zinc-plated steel hinges
7. One lock for security
8. Rugged door lifting handles (two per door)
9. Flexible bottom seal for airtight fit to the floor

OPTIONS & ACCESSORIES

- Super Bottom Panel adds strength and durability where most impacts occur. 2-YEAR PERFORMANCE WARRANTY
- Double Knockout Header track allows the door to knock out in both directions at the top of the door opening (vertical lift track only)
- Clear Vision Panel is a 24" high panel that runs the full width of the door to provide energy-saving sunlight inside and full visibility outside the facility.
- Single Pane, Double Pane or Vented Rectangular Windows
- Anti-drift down lock prevents door from drifting down when springs are not adjusted properly (vertical lift track only)
- Power operation or manual chain hoist
- 3" Bottom brush seal in addition to loop seal
- E-lift Adjustable CounterWeight System in lieu of springs
