

# LOADING DOCK MAINTENANCE

## FIND OUT HOW WE CAN HELP YOU PROTECT YOUR INVESTMENT

Optimize equipment operation, save energy cost and increase equipment reliability - because the biggest headache in any operation is downtime.

### INSPECT

- 118 Point Equipment Inspection
- The structural integrity and security of the equipment

### CLEAN

- All equipment and components
- Debris from pits, around doors and other key areas

### ADJUST

- As needed to increase efficiency

### LUBRICATE

- All pivot points to aid efficient operation, keep working parts in working order, protect against corrosion, premature wear and moisture.

### DOCUMENT

- Equipment condition and identify where repairs, replacements or even upgrades are required
- Date when the work was done

Cut maintenance costs 12% to 18%

Reduce energy bills between 5% and 20%

Minimize bottlenecks caused by unexpected downtime

REDUCE  
OPERATING COSTS

ENHANCE  
PRODUCTIVITY

OPTIMIZE  
WORKFLOW
