

The Smartest (and Most Energy-Efficient) Charger in the Business ...

Just Got Smarter

Patented LIFEPLUS® technology has a long, proven track record of substantially reducing charging costs and the cost of operation:

- LIFEPLUS® features the highest conversion efficiency and highest power factor – significantly reducing electrical consumption and demand charges.
- LIFEPLUS® features 'Plug and Play' flexibility, responding dynamically to charge a wide range of battery voltages and capacities without user intervention.
- LIFEPLUS® is approved for use as an 'Opportunity' charger.
- POWERLINE™ and ENERGY-PLUS™ batteries charged on a LIFEPLUS® charger are warranted for 6-years or 1,800 cycles.

The New LIFEPLUS® TC3 will put these exciting new capabilities to work for you:

- Internet Readiness – The TC3 has its own IP address and can be remotely accessed via local network.
- Enhanced Opportunity Charge Capability – The TC3 features an opportunity charge profile with higher output rates to make the most of intermittent charging opportunities.
- Battery Boss® Control – The TC3 can interface with the HAWKER Battery Boss® control module.

Ask your HAWKER Representative to show you how much a LIFEPLUS® charger can save you.
