

# 1-800-968-8651

Michigan's & Northern Indiana's Industry Leader For All Loading Dock, Industrial Doors, Battery & Chargers, Parts & Repair.

**Cool Employees**  
**Increase Productivity**  
**Reduce Effects of Humidity**  
**Reduce Energy Consumption**

## BEAT THE HEAT

Get a jump on the summer heat! Soon temperatures will rise and warehouse facilities will reach unbearable extremes! High temperatures bring concerns for the well being of employees. Help keep your employees cool, safe and productive this summer, while keeping your facility running efficiently throughout the heat wave.

### Serco Industrial HVLS Fans **THESE FANS PAY FOR THEMSELVES**

Our BIG Fans circulate large masses of air creating a slow and steady breeze to cool facilities. In the winter they help distribute heat to warm facilities.

- Provides temperature decrease of 7-11 degrees
- Potential **4% energy savings** per degree change
- Allows you to raise your thermostat 3-5 degrees
- Reduced humidity improves product integrity and safety
